Stitch Guide:

kmc = knit main color

pmc = purl main color

kcc = knit contrasting color

pcc = purl contrasting color

sl2tpw = slip 1 double stitch (a loop of each color) purlwise

k2tog = knit 1 loop of each color together for last stitch on each row

This is a double knit project. Both sides are identical in pattern but opposite in color. You will be carrying both yarns together front and back always as you work each stitch. Both sides are worked at the same time. You will knit the front side stitch while purling the backside stitch on each row.

Stitch Example: (kmc, pcc) 3x means you will kmc and pcc then repeat two more times. Keep any stranding snug but not tight.

There is a tutorial on my website.

Cast on 41 holding both strands together to equal 82 stitches cast on. You'll want your cast on stitches to be cc then mc then cc then mc, etc.
